HALL WE VOTE TO HELP ENG-The financial situation in the Unit-ed States is very serious. The Senate has blocked all relief measures propos ed by President Cleveland and Congress is at a dead standstill on the money question.

The free coinage Senators are masters of the situation.

The condition of affairs in the Unit ed States Congress demands the immediate attention of British financiers and statesmen. The 'rade of the world is now in our hands, but it will not long remain there if the United States goes to a bimetallic basis with States goes to a bimetallic basis with free and unlimited coinage of silver. With the addition of silver to the volume of money, everything in Amerida would take on a new face; labor and industry would gain new life. You shall not press upon the brow The grip of the gold standard on the of labor, this crown of thorns. You products of the world would be loosshall not crucify mankind upon this ned and products would rise. Great Britain would loose her market for South America, Asia and Europe, and American ships would not be long in Morris Cliggitt ..... Pittsburg capturing the carrying trade of the 

British creditors must now apply themselves quickly to the American money problem. The sound money men and banking interests, led by Senator Sherman, Cleveland and Carl-C. A. Hiller, at large. . . . . . . Salina | isle, with a plentyful supply of means have been beaten. The American people are now thoroughly aroused and educated on the power and use of money, and made desperate by debt and business depression they are force ing free silver as the main issue.

Great Britain need fear no injury to her trade or investiments if the Republican party can force "protective tariff" as the main issue in the coming Presidential campaign, but if free diver dominates the American mind and carries at the polls it will bring bout a change in England that will be ruinous from its suddeness and sevrity. The damage that can be done British manufactures by a protective tariff is slight compared with the dissters that would be entailed by a diange from a single gold to a complete bimetallic standard.

It is evident that the Democratic party will not nominate a man who olds to President Cleveland's ideas on money, and the only hope for a continuation of Mr. Cleveland's financiai policy will be in the success of the Republicans in the next election.

The sucress of free coinage will bring down the rate of interest on money and cause an immediate rise in the price of all commodities. When silver becomes primary money the American mines will pour their prodacts into the mints and a new era simplar to that produced by the issue of greenbacks durring the civil war will begin. Gold will leave the banks and enter into competition with silver in the avenues of trade, and the manufactories of the United States which ave been shut down or crippled 1892, will again resume their fight for the English markets.

It is doubtful whether the Republican party can be held much longer in check by sound money statesman, as its adherents are divided by powerful faction. The Democratic party is also breaking up under the free silver agitation. It matters not to Great Britian which party succeeds it gold standard is maintained, but either of the old parties or a new party which goes into power pledged to free coinage will be inimical and prejudicial to English manufactories and

The American people cling with wonderful tenacity to party organizations, but financial embarrassments and business stagnation have become too severe for their patience and they are ready for any change that promises relief. They are becoming convinced that it cannot be found in the protection theory, as that has been tried. and they are massing now on free silto the single gold standard.-St.

Louis Post-Dispatch. Will the American people take care

J. 1. BRELSTORD Secretary. A cousin of Major McKinley preided at the free silver meeting in vention to be held in Indiana. The Less than 5 per cent on the comquestion naturally arise as to whom erce of the United States is with these delegates represent.
